

# Plank grating Plain

## Stainless steel

Punched hole mesh gratings CUBE® Plain has a high strength-to-weight ratio which means that strength is maintained while weight is reduced. The greater the span, the lower is the weight – in relation to pressure-locked mesh gratings. CUBE® Plain mesh gratings are recommended in industries where hygiene and high air- or liquid flow are required.

### Specifications

Free area	50-56 %
Downward drainage holes	34x34 mm
